of our professional staff have advanced certifications

> "THOUGHTFULLY DESIGNED PROJECT CONTROLS PLAY A VITAL ROLE IN THE SUCCESS OF COMPLEX CONSTRUCTION PROJECTS. AT AEGIS, OUR EXPERIENCED TEAM IS PROUD TO LEAD THE CHARGE FOR INNOVATION IN THE PROJECT CONTROLS INDUSTRY."

- DAVID J. HATWELL, CEO

THE AEGIS DIFFERENCE

Relentless

We go above and beyond to exceed expectations, ensuring our clients and employees feel and know they are our top priority.

Extended family feel

We always look out for our clients; they are part of our extended team, and we treat them with the highest level of care and respect.

Entrepreneurial spirit

Our natural pace is one step ahead. Like the mighty rhino, we charge forward to create solutions.

High-spirited fun

We're vivacious and love to bring fun to every project, infusing positive energy into everything we do to create meaningful relationships.

Trusted partner

We stand by you, providing the confidence that everything will be done right.

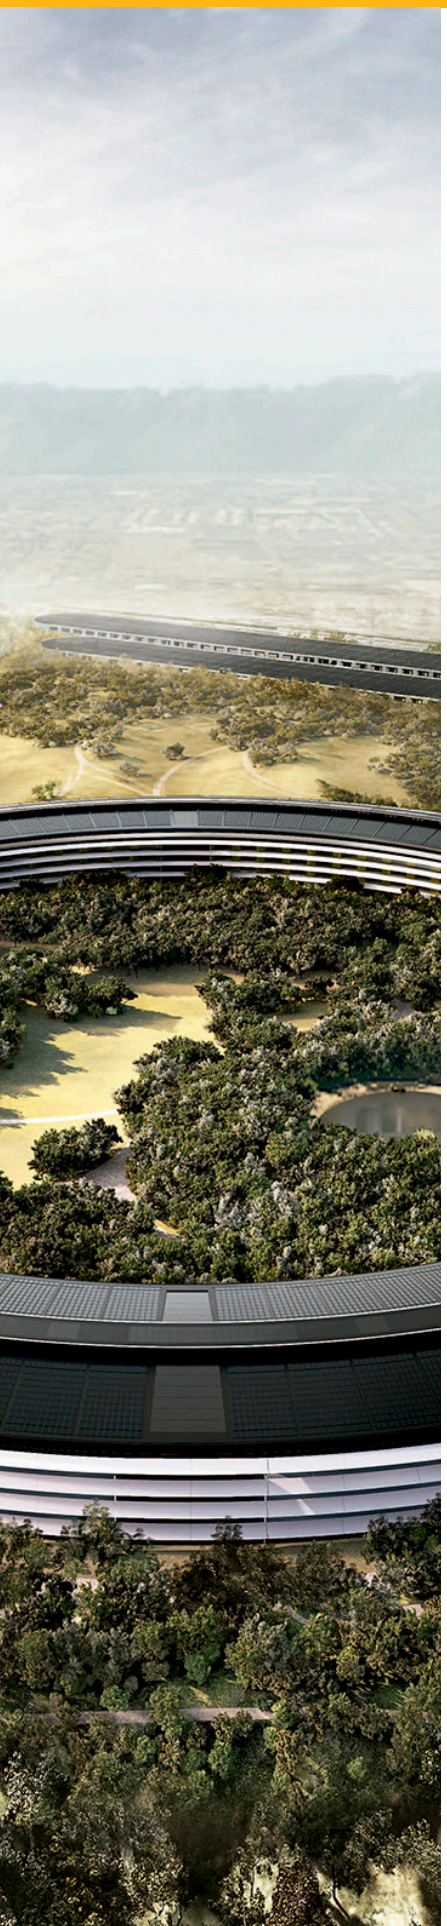

Aegis' project controls expertise is the foundation for every solution we provide. Our unrivaled expertise in project controls strengthens Aegis' full range of services, enabling more efficient execution, smarter recommendations, and better outcomes for our clients.

Our commitment to excellence results in intelligent, analytical solutions that support clients across every sector. Our approach reflects a deep understanding of project complexity and risk, allowing us to anticipate challenges and drive predictable results. Our solutions span the full project lifecycle, from conception through post-construction. We act as a true partner and an extension of your team, bringing structure, insight, and accountability to every engagement.

We are passionate about problem-solving and building lasting partnerships. That passion, grounded in strong project controls and applied through practical execution, keeps projects moving forward with clarity and confidence.

SECTORS WE SERVE

WE'VE GOT YOU COVERED

With decades of experience, Aegis' staff have worked in a diverse range of markets. We leverage our deep experience for the benefit of your project.

- Aviation
- Education
- Industrial
- Life Sciences
- Power
- Data Centers
- Heavy Civil
- Mixed Use
- Recreation
- Water and Wastewater
- Government
- Hospitality
- Roadways
- Rail
- Civic
- Healthcare
- Renewable Energy
- Office
- Manufacturing
- Chemical
- Pharma

OBSESSED WITH YOUR SUCCESS

We partner with owners and contractors to deliver high-quality solutions to the construction industry.

Aegis' expert teams help clients keep projects on track from planning through construction by providing practical guidance on schedules, costs, resources, and risk.

We combine detailed planning and scheduling, proactive risk management, and clear, actionable data analysis to identify problems early, support better decisions, and avoid costly delays.

When disputes arise, we provide the facts, analysis, and expertise clients need to resolve issues and protect project success.

AEGIS

PLANNING AND SCHEDULING

CREATING A SCHEDULE AND PLANNING A PROJECT ARE NOT THE SAME.

A plan encompasses the entirety of a project, including the schedule, risks, costs, and resources. The plan is used by all parties to manage the project throughout its life cycle.

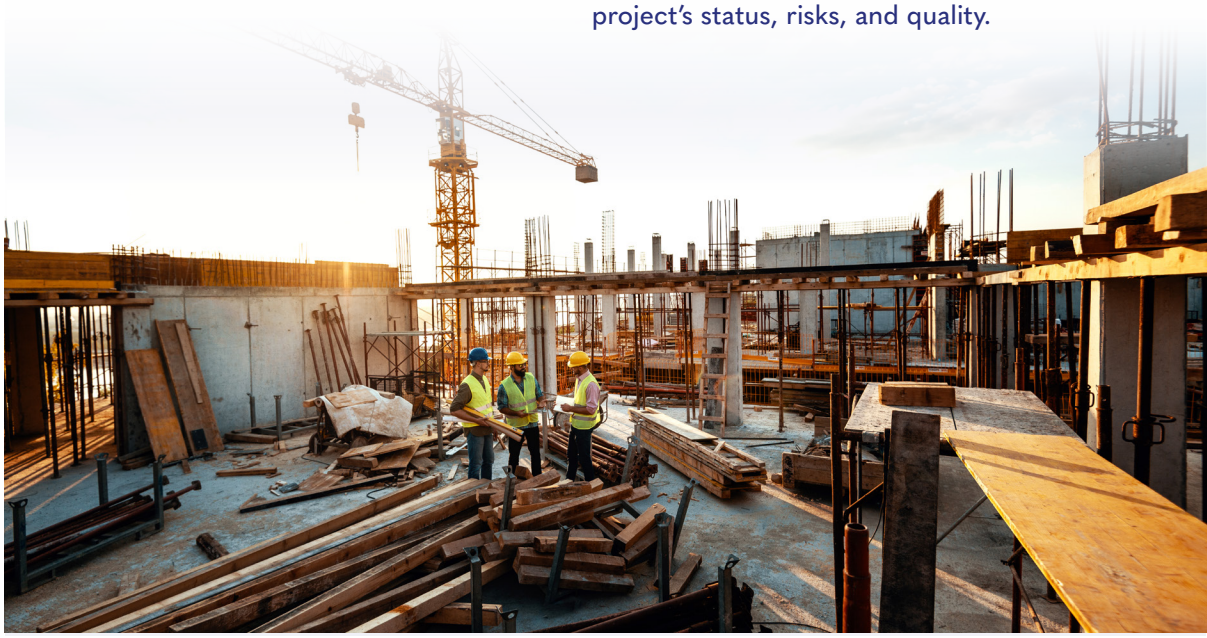

WHO WE ARE

Aegis' planning services offer unrivaled expertise to our clients, both on the owner and the contractor side.

With the largest bench of project controls professionals in the country, we assist our clients with the integration of schedule, risks, costs, and resources to provide the highest-level project controls services and a deep understanding of a project's health.

Our plans help manage projects from concept to completion. Aegis works with the project team to create a plan that includes all phases and scopes of work. From concept to design and from preconstruction to close-out, Aegis is a core part of the project team.

We use sophisticated analysis of project data and leverage proprietary metrics and KPIs to provide the project teams with actionable information about their project's status, risks, and quality.

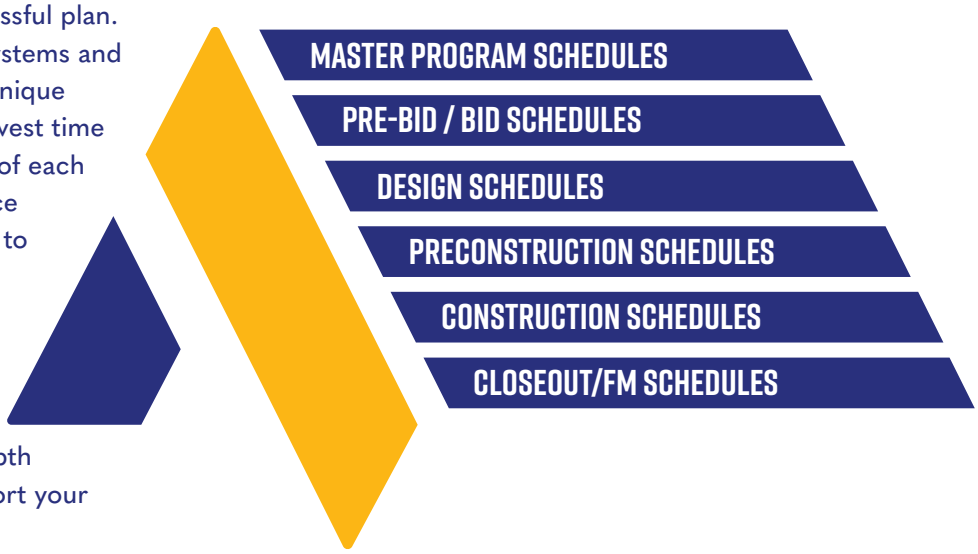

OUR PLANNING & SCHEDULING APPROACH

The goal of Aegis' planning and scheduling service line is to understand, predict, and constructively influence a project's time and resource outcomes.

With decades of experience, Aegis has the processes and procedures needed to execute a successful plan. Our approach combines our proprietary systems and structured approach to planning with the unique nature of each project and program. We invest time to understand the individual requirements of each project, addressing constructibility, resource planning, and collaborating with your team to create the best plan for an on-time and on-budget project.

We often work within an existing project or program and offer enhancements that will bring value to your project through our depth and breadth of knowledge. Aegis can support your program through any phase of a project.

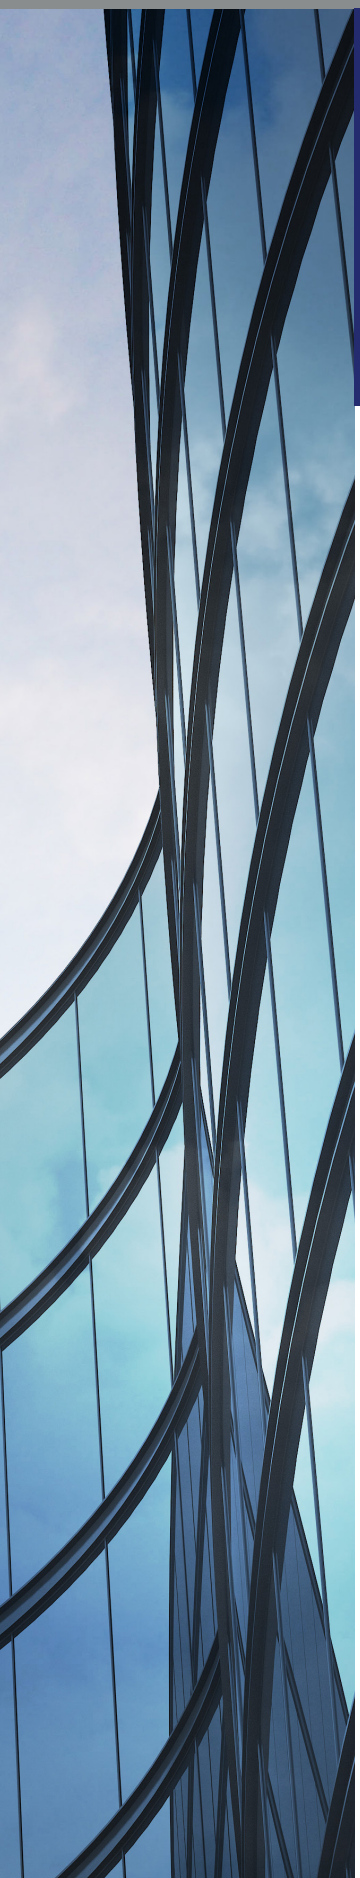

SERVICES

We provide comprehensive project controls and planning services throughout the life cycle of the project. Our depth of experience allows us to quickly understand your needs and to provide you with the support and services your project and team require. Our services include:

- Schedules from proposal through commissioning
- CPM schedule development
- Schedule analytics, quality control, and KPI analysis
- Schedule risk analysis and Monte Carlo simulation
- Progress reporting and analysis
- Fragnets and time impact analyses
- Cost and resource loading and pay applications
- Earned value management
- Pull planning and short-interval scheduling
- Lean training and facilitation
- 4D, visualization, graphical scheduling, and linear scheduling
- Third-party schedule review

CONSTRUCTION MANAGEMENT

AEGIS CONSTRUCTION MANAGEMENT SERVICES ARE ROOTED IN PROJECT CONTROLS.

WHO WE ARE

At Aegis, construction management is led by seasoned professionals with extensive experience across various sectors and project types with a global track record of success. We bring the technical depth, experience, and leadership needed to guide complex projects from concept to completion.

OUR CONSTRUCTION MANAGEMENT APPROACH

Aegis offers unmatched project delivery experience, proven by over 6,000 successful projects across all seven continents and every market sector.

With two decades of experience on projects of all types and sizes, Aegis combines world-class project controls with deep construction management expertise. This integration of pre-development advisory services, design and preconstruction services, and comprehensive construction management creates better, more predictable project outcomes at every delivery phase.

A successful construction management team manages time, costs, resources, and risk across every phase of project development. Our construction management professionals bring experience and expertise spanning multiple market sectors, effectively and efficiently managing all phases of project delivery while achieving high marks across every metric that defines project success.

SERVICES

PRE-DEVELOPMENT ADVISORY

Aegis sets your project up for success from the very beginning, offering key pre-development services from inception to entitlement approval.

- Feasibility studies
- Program and concept development
- Delivery method strategy
- Design and construction solicitation

DESIGN AND PRECONSTRUCTION

Aegis helps projects move from ideas to shovel-ready, guiding teams through the planning, validation, and permitting needed to launch with confidence.

- Permit expediting and management
- Design management
- Budget development and management
- Constructability reviews

CONSTRUCTION MANAGEMENT

With thousands of successful projects across all market sectors, Aegis is experienced at integrating with client teams to deliver on time and on budget.

- Scope, cost, and time management
- Contract administration
- Quality control/quality assurance
- Risk management
- Close-out, turnover, and FF&E

DISPUTE RESOLUTION

AEGIS IS PART OF YOUR TEAM THROUGHOUT THE DISPUTE PROCESS.

WHO WE ARE

Aegis' Dispute Resolution service line is a premier team of construction experts committed to assisting our clients with risk resolution and avoidance strategies, affirmative claims, rebuttal reports, expert witness testimony services, and the timely resolution of disputes on complex construction projects.

We are committed to consistently delivering the best product through robust analysis and a comprehensive understanding of the issues and methodologies. Our solutions result in stronger working relationships between project stakeholders, guiding our clients toward a path of success.

Our team has the depth and breadth of experience necessary to navigate simple and complicated disputes.

Recognized in the fields of schedule delay analysis, cost analysis, loss of productivity analysis, quantification of damages, and expert witness testimony services, our experienced team is fully equipped to provide analytical and advisory services to clients throughout the life cycle of a construction project.

OUR DISPUTE RESOLUTION APPROACH

Using industry-standard methodologies and advanced analytic techniques, we are uniquely positioned to produce demonstrative analyses beyond the numbers and clearly illustrate cause and effect.

We pride ourselves on presenting the best possible supportable position for our clients during and through the lifecycle of the dispute. If attempts to settle fail and the eventual result is litigation, we can provide the necessary expert witness testimony and comprehensive support.

We provide clarity into what can sometimes be an opaque process. We involve the client every step of the way through weekly check-in meetings and frequent progress reviews, or whatever cadence you might require. Our team understands that this is inevitably a stressful process, and we believe that it is important that clients understand the steps involved, the internal and external challenges that exist, and the rationales for our approach. This collaborative and transparent approach allows everyone to be on the same page and can be very effective when trying to reach a resolution with the other party.

SERVICES

We provide comprehensive dispute resolution services, delivering key risk insights and protecting our clients throughout the life cycle of the project. Our team has a strong track record of guiding our clients through delay and cost analyses, change orders, and litigation by providing thorough mitigation strategies and establishing the best path forward. Our services include:

PRECONSTRUCTION

- Contract review
- Risk assessment & management
- Monte Carlo probability analysis

DURING CONSTRUCTION

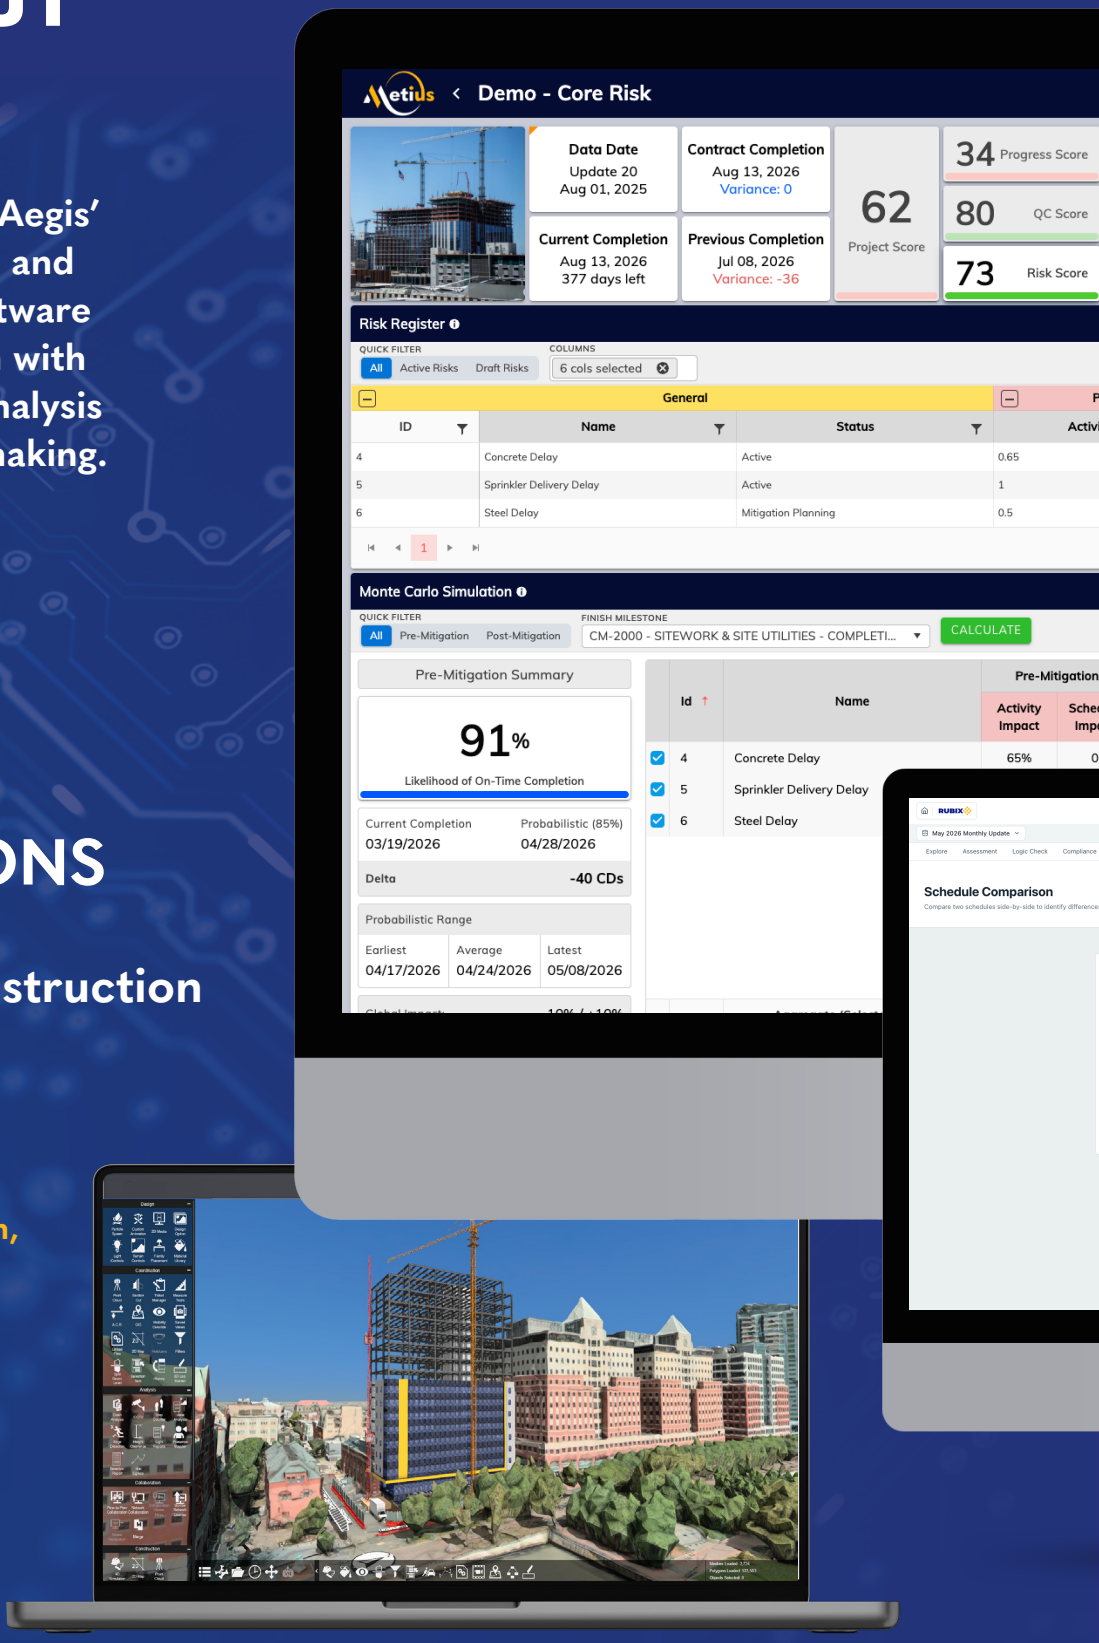

- Contemporaneous and forensic delay and cost analyses
- Change order support
- Predictive analytics
- Advisory services

LITIGATION SUPPORT

- Expert delay and cost reports
- Expert witness testimony
  - Mediation
  - Arbitration
  - Trials

TECHNOLOGY

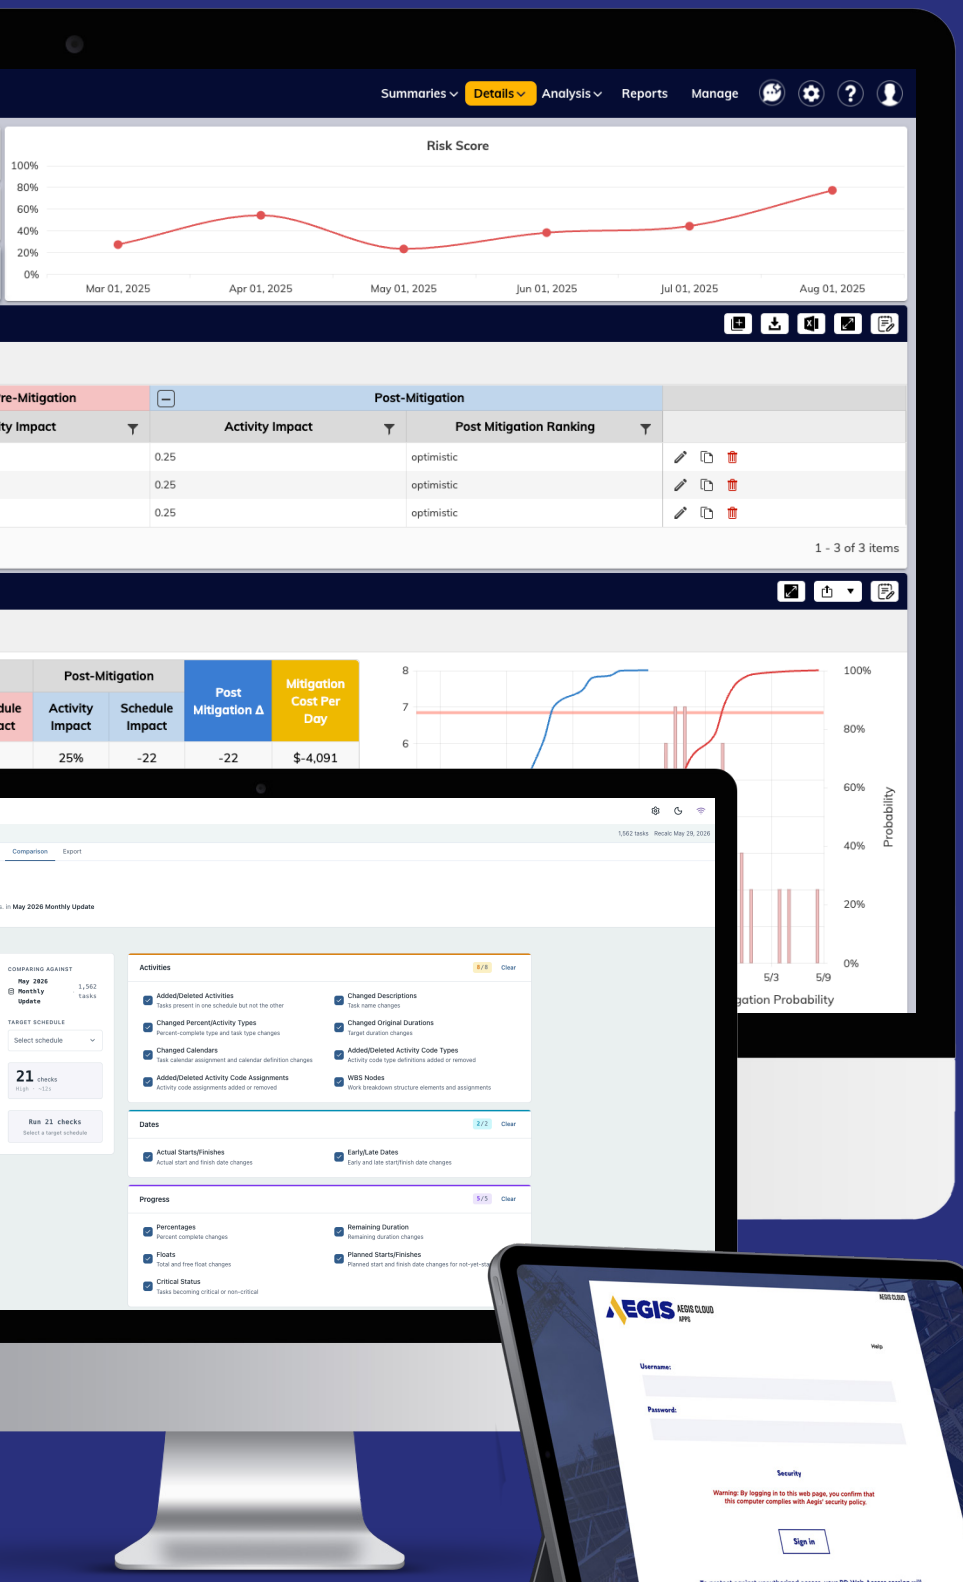

Our clients benefit from Aegis' technological capabilities and in-house, proprietary software solutions, providing them with actionable insights and analysis to drive smart decision making.

OUR SOLUTIONS

4D: Visualizing construction

Aegis uses 4D scheduling and animation to bring construction plans to life, improving collaboration, optimizing project execution, reducing risk, and enabling more informed decision-making.

Metius

Aegis' analytics capabilities are powered by Metius, a project performance platform purpose-built for the construction industry.

RUBIX

Schedule analysis, quality control, and comparison software do not have to be complicated. Rubix gives professionals the tools they need to manage schedules.

AEGIS CLOUD

Primavera in the cloud. The full power of Primavera without any of the technical hassles.

BE THE RHINO

PROUD SUPPORTER OF RHINOS EVERYWHERE

When lightning strikes the African plains, the rhino, recognizing the threat to its home, charges forward and stomps out the fire. The mighty rhino embodies our company. Rhinos lead the way—swiftly identifying and overcoming challenges. That's why every day we aspire to "Be the rhino" for our clients and our company.

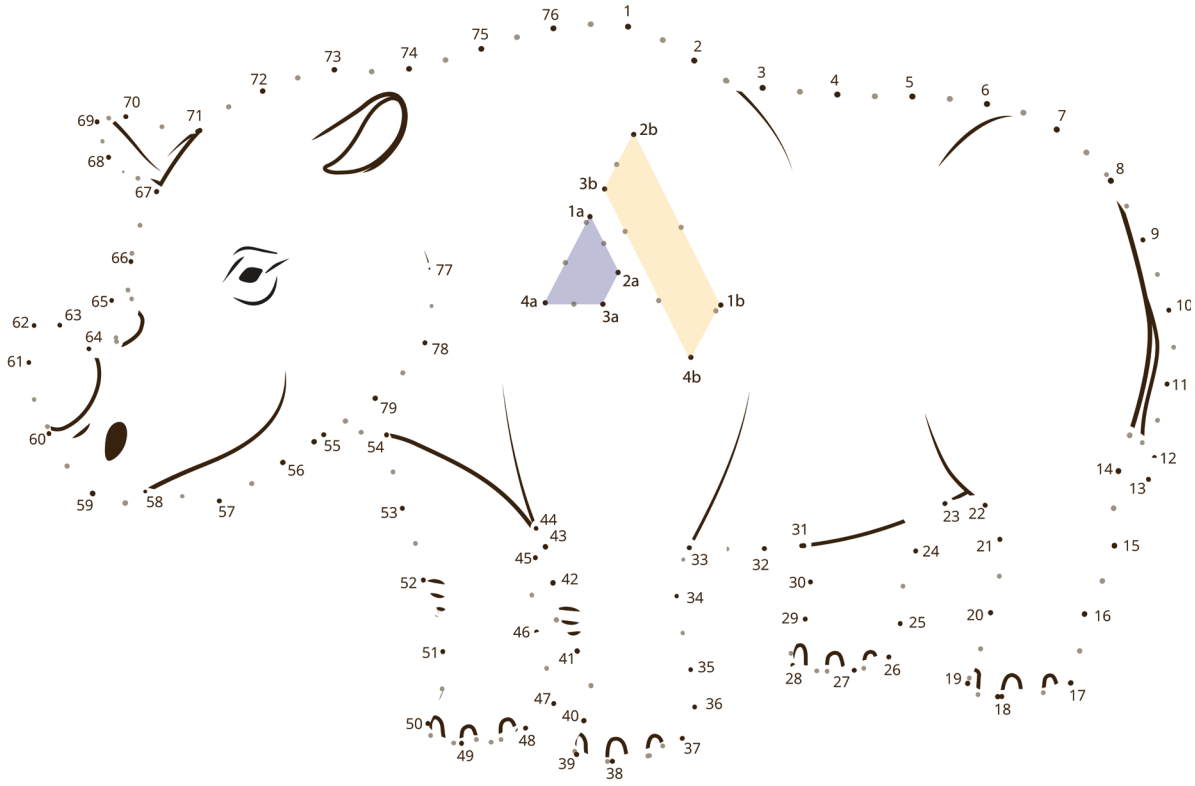

Although we look to these mighty creatures for inspiration, today, very few rhinos survive outside national parks and reserves. Poaching, habitat loss, and political conflict are all threatening the survival of the rhino species.

We're proud to have supported several organizations, including the International Rhino Foundation, Love the Last, Conservation Nation, and The Smithsonian National Zoo, working to protect rhinos in the wild.
